

Colour Coded Book Labels for Year 7

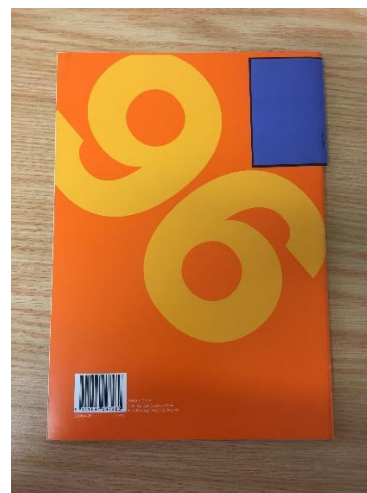

Steps to colour code exercise books.

1. Download the colour coded book labels from the school website or SEQTA documents: Learning Enrichment section
2. Cut out each book label (it will be folded on the dotted line)
3. Cover the exercise book in the book covering of your choice (optional)
4. Cut a strip of clear contact larger than the book label and stick the contact over the top of the book label.
5. Attach the book label to the top of the book, as illustrated in the pictures. There will only be a short piece, that overlaps, to the back of the book
6. If you did not cover the book in printed or plain book covering, cover the whole book in clear contact
